

Microsoft is hiring graduates!

We want to offer you the opportunity of a lifetime; the chance to work inside a global technology company during one of the most exciting periods in its history.

The Microsoft Academy for College Hires (MACH) Program is designed for university students like you. We believe that work is a place for exploration, creativity, innovation and professional growth. At Microsoft, you learn from the finest in the business. As a **full time graduate employee**, you experience an inspiring world class program.

Our Graduate opportunities

SALES GRADUATE ROLE

It's no use having world-class products and services if no one knows about them. That's why we need world-class sales teams to make sure our customers understand what our technology is and how it can help them. As a graduate in our Sales team, you'll be part of a division that puts the customer at the centre, always listening to them.

TECHNICAL GRADUATE ROLE

Enabling our enterprise customers to maintain their competitive edge isn't just down to the technical geniuses at Microsoft. If you love working both with people and technology, tackling challenges and coming up with innovative solutions, we've got a place for you in our Consulting team.

SERVICES GRADUATE ROLE

Joining us as a Technical Account Manager you'll work closely with some of our biggest enterprise customers. When you're not managing client relationships, you'll be solving problems and coming up with brilliant ways to deliver our world-class infrastructure services. And all with one goal in mind: helping our customers realize their full potential.

Location: Warsaw

Package: Uniquely competitive salary and benefits.
