ESPA

Software Development Internship (MAVSD1107)

Start date
As soon as possible

Duration
6 months

Languages
Good spoken and written English levels are required (B2 onwards)

Location
Weston-super-Mare, England
The original British seaside resort which continues to grow in popularity as it modernises whilst retaining much of its historic Victorian charm. A coastal resort offering everything you'd expect from such a setting which is also the 'Gateway to the Southwest'.

Are you eligible?
Are you a registered student?
Or
Are you eligible to participate in the Erasmus+ programme?

Benefits
See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This internship position assists on delivery of a large web project producing bespoke build, web-based management system to production.
The role involves working alongside managers and stakeholders to bug-fix and deploy the "Darwin" platform, a specially developed business management tool. You will need to be independent, be able to manage your own time, and be confident to navigate yourself around an existing project codebase.

Tasks

- Programming/ coding in PHP, MYSQL
- Using UNIX server environments
- Bug fixing scripts
- Using Git version control
- Using Jira Project management tool

Desired Skills

- Working knowledge of PHP, MYSQL
- Experience using UNIX Server environments
- Experience of Linux environments (Ubuntu/Centos)
- Self-starter, determined attitude, can meet deadlines

Bonus Skills (not required, but will help)

- Experience working in UI design
- Experience in deploying web applications in a dedicated server environment
- Some knowledge of database seeding/migrations

The Host Company

The host is an IT support company. The clients are one of the world's most successful wildlife production companies, known most notably for BBC's Planet Earth documentary. The Bristol based, globally operating company produce work for Netflix, BBC, Disney, National Geographic, Sky and others.
